

FEBRUARY 2015

Joe Staroksa
Weathercraft of North Platte
2401 E. 8th Street
North Platte, NE 69103

Dear Joe:

The annual Firestone Building Products Master Contractor Award recognizes leading Firestone Building Products Red Shield™ Licensed Roofing Contractors who demonstrate roofing system installation excellence. Based on a series of first-class jobs completed in 2014, Firestone Building Products has presented Weathercraft of North Platte with the 2015 Master Contractor Award.

This is the 25th time Weathercraft of North Platte has received the Firestone Building Products Master Contractor Award. The firm has Nebraska offices in Scottsbluff, Sidney, Ogallala, McCook, Lexington, Broken Bow and Grand Island (Duff Roofing); Kansas offices in Goodland and Hays (High Plains Roofing); a Colorado office in Brush; and a South Dakota office in Chamberlain. Weathercraft of North Platte achieved this designation based on total square footage installed, quality points accrued for outstanding inspection ratings on installations covered by the Red Shield™ Warranty, and the number of Red Shield warranted completed jobs. Additionally, to qualify, Master Contractors had to earn a Preferred Quality Incidence Rating (QIR) that did not exceed three times the average QIR for Red Shield Contractors. QIR is determined by the annual number of quality incidents per million square feet of roofing under warranty.

I commend Weathercraft of North Platte for its commitment to quality in 2014, and for upholding the high commercial roofing performance standards set forth by Firestone Building Products. We are pleased to recognize Weathercraft of North Platte as a Master Contractor and look forward to continuing our partnership in 2015.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Dunn".
